

2015 Meriden Airport Fly-In and Wings Seminar, DATE AND TIMES HAVE CHANGED

Pilot Proficiency and Cockpit Management is an interactive seminar where pilots will decide what steps are needed to attain proficiency. Through high profile accident review we will see how pilots can substitute complacency and ego for proficiency and safety. Proficiency in flying skill is stressed but also addressed is the need to constantly review aeronautical decision making, workload and automation management. Tips for methods to stay current are offered as well in addition to the minimum requirements of three takeoffs and landings every ninety days. Don't miss this event. Click the link below and register TODAY.

Directions: Take main st. to Evansville Ave. See Map link on full announcement. Aircraft parking on the South Grass.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
